## CONTINUOUS CUSTOMS BONDS & RENEWAL

The bond is a guarantee that all customs duties, customs penalties, and other charges assessed by U.S. Customs will be properly paid, in the event that the importer fails to make such payments. Continuous bonds are issued to cover all of the importations of an importer for a period of one year. The amount of the bond required to be secured by the importer is usually equal to 10 percent of the total customs duties paid for the previous years, or a reasonable estimate for the current year, but not less than \$50,000.
